

BRITAIN, THE EMPIRE OF EVIL, PUSHES GENOCIDE AND WORLD WAR

As Queen Elizabeth II and Prince Philip arrived Wednesday in Germany for a three-day visit, the truly Satanic nature of the British Empire was on full display. Prince Philip's top aide, Martin Palmer, is the principal organizer of a French government-sponsored Paris conference in July, peddling the same genocidal program of "Earth stewardship" that would-be mass murderer John Schellnhuber inserted into the recent Papal Encyclical on climate change. The Paris conference is part of the propaganda assault, leading to the next 'Copenhagen' conference at the end of the year, also in Paris. The Worldwatch Institute, founded by Lester Brown, has just issued a report, demanding an end to all subsidies for fossil-fuel and nuclear power, as part of the drive for a total conversion to renewables like solar and wind power.

Any such reversal of the core principle of increased energy- flux density means mass genocide, on the scale that Prince Philip and Schellnhuber have been advocating for decades. Leading Italian economist Nino Galloni has penned an excellent attack on the recent Papal Encyclical, precisely from the standpoint of the concept of "energy-flux density" developed by Lyndon LaRouche.

The question that must be posed to all sane citizens is: Are you for the British Empire's genocide, or are you for the human race? Are you with Zeus or Prometheus?

This is no abstract question. With the entire European financial system just days away from potential complete meltdown, around the showdown with Greece, and with a British-led NATO explicitly provoking thermonuclear confrontation with both Russia and China, the

very survival of mankind is on the line.

There is no question where President Obama stands. He is a British agent, fully committed to the genocidal agenda of Prince Philip, Martin Palmer, John Schellnhuber, and the rest. Yesterday, the internationally renowned Doctors Without Borders issued a highly unusual, scathing attack on Obama, for his Trans-Pacific Partnership free trade swindle, which, the release details, will shut off affordable medicine to at least a half billion people, under the secret clauses of the treaty, written in league with the major pharmaceutical companies. This is mass murder, plain and simple, and this is Obama.

The greatest danger to human survival is the British Empire's plan for mass genocide, as expressed by the Queen's agent Schellnhuber. This is a full-blown commitment by the British Royal Family to reduce the world population to under one billion people. Any other matters are distractions and intentionally engineered distractions to prevent any effective counter to the genocide plans.

The British Empire is a Satanic force, and is the continuation of the European Empire system that has been at war with mankind, ever since the launching of the 15th-Century Renaissance by Cardinal Nicholas of Cusa. The Empire's response to Cusa and the Renaissance was the launching of 150 years of uninterrupted religious war on the European continent.

The latest expression of the British Monarchy's commitment to that same mass extinction is the Schellnhuber operation run against the Pope. It is around this issue that the future of mankind will be decided in the immediate period ahead.
