

TERROR ATTACK IN ORLANDO — RELEASE THE 28 PAGES

June 12, 2016—The mass murder in Orlando Sunday morning, killing 50 and wounding 53, by an American of Afghan descent with professed ties to ISIS who had been interviewed at least twice by the FBI, drives home once again the urgency of forcing the 28 pages into the open. That classified section of the Congressional report on 9/11 exposed not only the Saudi role, but by implication also exposes Obama's conscious role in supporting terrorism internationally, as an integral part of his "regime change" policy in league with the Saudis and the British Empire, and his drive for war on Russia and China. The FBI's criminal role in covering up the 28 pages, protecting terrorist cells in the U.S. and around the world, and protecting Obama from paying for his crimes, must be at the center of the investigation into the Orlando atrocity.

This attack must serve as a wake-up call to Americans — the nation can not tolerate for another day this mass killer in the White House. Even as Obama is deploying the largest military forces along Russia's border since Hitler prepared to invade the Soviet Union, and even as Obama is frantically trying to create a new "NATO-style" force in Asia to militarily confront China, the world is changing, out from under his Nero-esque, narcissistic belief that he rules the world. Obama is like Zeus, the fake-God of Mount Olympus, who declared to mankind that "I make the rules," even while the mountain itself was crumbling under

his feet. Nonetheless, Obama can push the button, and must be removed from office immediately.

Sunday morning, just hours after the Orlando terror, Obama's CIA Chief John Brennan, who just weeks ago said that the 28 pages of the Congressional 9/11 report must never be released, told the Saudi Arabia-owned Al Arabiya news network and CNN that he and Obama may not be able to hold back the tide, that the 28 pages could "and should" be released. But, he pathetically whined, please don't believe what is in it! Subsequent studies showed that it is all wrong, that the Saudis played no role, and that they are our friends, he lied.

It must be remembered that on the day of the Charlie Hebdo terror assault in France, Jan. 7, 2015, former Sen. Bob Graham of Florida told a press conference in the Congress, that had the 28 pages been released, and the actual sponsors of terrorism exposed, the terrorist attack could have been prevented. This is equally true today.

Brennan and Obama have good reason to be frightened of the contents of the 28 pages. It is not just the Saudis who are exposed therein, but Obama and his British controllers, who, together with the Saudis, armed and deployed the international terrorist organizations to achieve their evil intention, to destroy nations which refuse to follow dictates from London and Washington. These include Iraq, Libya, Syria, Yemen, and now on to Russia and China, leading the world to the brink

of thermonuclear extinction, as Obama is frantic to stop the new paradigm characterized by the New Silk Road process.

As Lyndon LaRouche told a meeting in Manhattan Saturday: "I think there's a process under way in which much of the planet — among nations — which wants to do the right thing, so-called: that is, to bring about the kind of conditions of life, as prospects and as realities, which are needed for humanity's existence."

The evidence for this is everywhere, if people simply choose to look, rather than blindly accept the filth peddled by the Western media and governments. The New Silk Road, driven by China and Russia and India, representing more than a third of the world's population, are building railroads and power plants and water projects and more across the developing sector; while the trans-Atlantic nations crumble into financial and physical chaos, with negative interest rates and "helicopter money" to prop up bankrupt banks.

Abdelmalek Sellal, the Prime Minister of Algeria, said today: NATO can do nothing to help Libya. Rath-

er, he said, the West must start the development process, and "they must act as rapidly, if not more, than they did when they came to the rescue of the global stock market and banking system. The world's peace and security are as important as any bank's or financial institution's operating statements."

How do we make Americans and Europeans wake up to what their governments are doing in their name, to take action to stop the terrorism and the nuclear holocaust, to inspire people to act to bring the world together for development? LaRouche was asked this question on Saturday, answering: "If you do things on the basis of seeking an advantage, then you have lost everything, and sooner or later it will catch up with you, and you will wish that you never let these results come in.... The question is what you, in yourself, inside yourself, what you really embody. Do you have the ability to pick up those values which must be served, for the sake of humanity as a general phenomenon? Without that, you are not armed. You are disarmed."
