

Crush the Coup!

August 11—It would be a dangerous farce to limit the focus to international hotspots. The United States is what is the issue— Not something else. The point is that you can do that; you have the power to organize people in that situation, and to bring the whole thing into unified action. Don't sit and wait in any sense. You have to crush the issue now, while we still have it. The VIPS, the Veteran Intelligence Professionals for Sanity, are not unknown to the Congress—which makes it all the more grotesque that the Congress would vote almost unanimously for these unheard-of, unconstitutional sanctions. They're being arm-twisted! That's what's doing it—the Congress is terrified. You have to put the message in! "Unfortunately, some of our Congressmen have lost their memories!" You can't just sit by—you've got to say, "Wait a minute, buddy! We, the people of the United States, are the authority which has to be considered!"

Follow that pathway. Put emphasis on that consideration. That's the only way to do it. Just push the support from various places around the world, get the government into shape, and raise Hell with anyone who's ignoring this. Pour it on! Don't let it get lost. Pour it on now! That's the only way you're going to solve that problem! But you can solve it, if you wish to. That's all

you have to do—do it! It can be swamped, if you do it right. We have to put it on a hot fire—make sure we're doing it. And that's the only way we're going to really solve this problem.

Now we are beginning to turn the corner in the campaign to force through the VIPS memorandum of July 24, and destroy "Russia-gate" as a vehicle for overturning the election and the Constitution. This morning's briefing covered the exhaustive story in {The Nation} by the prominent international award-winning journalist Patrick Lawrence (formerly known as Patrick L. Smith). That was followed within hours by a full article by Stephen Cohen in the same publication, citing the VIPS and Lawrence, and drawing the conclusion that the "Russia-gate" coup-attempt against President Trump creates the real threat of nuclear war.

This morning, Bloomberg News released a full and very competent wire by Leonid Bershidsky, "Why Some U.S. Ex-Spies Don't Buy the Russia Story." Bershidsky marshals all the evidence and citations from the VIPS and their sources, and puts it squarely to the press and government agencies: You can't hush this up any longer! Everything has to come out now!

Now we have to press forward and make it the law of the land.
