

The LaRouche Case: Robert Mueller's First Hit Job Documentary Premieres June 21

Over the weekend of June 15, 2019, the clear intention of the ongoing coup against President Trump exploded into the open with the reports that John Bolton and other plants in the Trump Administration are carrying out cyber-attacks against Russia, without the President's knowledge. This "dual power" struggle within the Administration, with the President battling alone against the British assets embedded throughout his national security and foreign policy apparatus, will determine whether the world sleep walks into a nuclear confrontation or whether President Trump can bring about a new, peaceful, and economically developing mode of international relations. To win, the President has to outflank his opponents with the ideas that can actually create a sustained economic future and a renaissance of cultural and moral values here — ideas embodied in the policies of Lyndon LaRouche.

The very same corrupt intelligence apparatus involved in the coup against Trump, including Robert Swan Mueller III, was deployed to take out LaRouche and permanently demonize him as he sought to bring revolutionary change to the so-called New World Order while rebuilding the economy of the United States. They targeted LaRouche because his ideas represented an existential threat to their plans and his ideas were beginning to be discussed for implementation throughout the world. LaRouche said that unless the corrupt intelligence apparatus, inclusive of the controlled news media, employed in his prosecution was rooted out, no one was safe. Now, the same apparatus has targeted the President of the United States and, indeed, no one is safe.

The LaRouche PAC video, "The LaRouche Case: Robert Mueller's First Hit Job," premieres on **June 21 at 9 am EDT**. If you want to prevent history from repeating itself, watch this video. If you want to give President Trump the policy tools to outflank his enemies, join the campaign to exonerate LaRouche.

Don't let history repeat itself.

It is time to deliver a fatal blow those who would keep these ideas from us and who would destroy our nation and its President.
